Amendments to the Specification:

Please replace the paragraph on page 27, lines 28-32 with the following amended paragraph:

Figure 9 illustrates a probe card assembly 900 which includes as its major functional components a probe card 902, an interposer 904, and an interconnection substrate 906 which may be a space transformer, which is suitable in use for making reversible interconnections to elongate interconnection elements 926 extending from semiconductor devices resident on a semiconductor wafer 908, which may be (but is not required to be) an unsingulated wafer.
